

## Thailand situation update on 12 June 2020

### 1. International Situation

As of 12 June 2020, there were a total of 7,613,578 confirmed cases with 53,914 patients in critical condition and 424,137 COVID-19 deaths across more than 210 countries, two Special Administrative Regions of the People's Republic of China (Hong Kong and Macau), and on cruise ships. The ten countries with the most confirmed COVID-19 cases include: the United States (2,089,825), Brazil (805,649), Russia (511,423), India (298,283), England (291,409), Spain (289,787), Italy (236,142), Peru (214,788), Germany (186,795), and Iran (180,156). The 18th is the People's Republic of China (84,217 cases, as well as 1,108 and 45 cases in the Special Administrative Regions of Hong Kong and Macau, respectively).

### 2. The Disease Situation in Thailand

#### 2.1 Surveillance Protocol for COVID-19

The accumulated data from 3 January to 11 June 2020 showed that among 40,289 flights, there were a total of 4,463,131 passengers screened. Among those, 1,542 people met the case definition criteria of patients under investigation (PUI). Outside of the airports, 150,453 people from 2,892 ships were screened at seaports between 1 January and 11 June 2020, and two people met the PUI criteria. There were 2,028,161 people screened at ground ports between 1 February to 11 June 2020. Between 30 January to 12 June 2020, a total of 197,254 people who were renewing their passports were screened at the Government Complex Commemorating His Majesty at Chaengwattana Road. The total number of PUI from all ports is currently 1,544 people.

#### 2.2 Situation of Patients with Suspected Symptoms of COVID-19 in Thailand.

On 12 June 2020 at 18:00, Thailand announced that 6,746 additional people met the criteria for PUI, raising the total to 261,606 PUI, as shown in Table 1.

Table 1: Results of screening implementation to detect patients with suspected symptoms of COVID-19

Situation	Total number of PUI
<b>Total number of people who met the criteria of patients under investigation (PUI) divided by ports</b>	261,606
• Detected from the airport screening	1,542
• Detected from seaports	2
• Sought medical services on their own at hospitals	259,974
• Notified by hotel residences, the Erawan Medical Center, local universities, tour groups and U-Tapao	88

Situation	Total number of PUI
<b>Confirmed cases</b>	3,129
• Recovered and discharged from hospitals	2,987
• Undergoing Treatment	84
• Deaths	58
<b>Characteristics of Infection in Confirmed cases</b>	3,125
• Local Transmission	2,444
• Imported Cases	685
- Designated Quarantine Places*	192

Notice: \*The quarantine measures for travelers from aboard have been in effect as of 3 April 2020

In Thailand, there have been 3,129 confirmed COVID-19 cases. Among the confirmed cases, 2,987 patients have recovered and returned home, and 58 patients have died.

A 14-day State Quarantine measure has been implemented by the government for travelers entering Thailand from abroad. On 12 June 2020, four additional cases were reported, and the total number of cases at designated quarantine areas increased to 192 cases. There were 62 cases among Thai people returning from Indonesia, 34 cases from Kuwait, 15 cases from the United of Arab Emirates, 14 cases from Saudi Arabia, 13 cases from Pakistan, 10 cases from India, nine cases from Qatar, eight cases from America, five cases from Russia, four cases from Malaysia, three cases from Egypt, two cases from England, two cases from Kazakhstan, two cases from Japan, two cases from Turkey, two cases from the Netherlands, one case from Bahrain, one case from the Philippines, one case from Madagascar. All Thai people returning from abroad are required to comply with State Quarantine measures, meaning they have to quarantine in specific provinces; in total there are 53 cases quarantined in Bangkok, 34 cases in Chonburi, 26 cases in Samut Prakan, 25 cases in Songkhla, 18 cases in Satun, 15 cases in Pattani, 9 cases in Yala, 9 cases in Narathiwat, and 3 cases in Krabi.

On 8 May 2020, 65 confirmed cases were found at the immigration quarantine unit at Sadao district in Songkhla province (37 cases were Burmese, 20 cases were stateless Rohingya, 3 cases were Vietnamese, 2 cases were Malaysian, 1 case was Yemeni, 1 case was Cambodian, and 1 case was Indian).

The median age of the confirmed cases is 37 years old (ranging from 1 month to 97 years old). 1,720 cases are male, and 1,409 cases are female (the ratio of male to female is 1.22:1).

In terms of nationality, 2,793 cases are Thai, 56 are Burmese, 35 are Chinese, 29 are French, 24 are British, 20 cases are Stateless Rohingya, 12 are Russian, 13 are American, 11 are Japanese, nine are Indian, nine are German, eight are Canadian, eight are Italian, six are Swedish, six are Belgian, six are Swiss, five are Danish, five are Filipino, five are Singaporean, four are Pakistani, four are Australian, four are Malaysian, four are Vietnamese, three are South Korean, three are Indonesian, three are Cambodian, two are Kazakh, two are

Brazilian, two are Laos, two are New Zealander (one case is Maori), two are Spanish, two are Israeli, two are Albanian, one is American-Samoa, one is Malian, one is Kuwaiti, one is Serbian, one is Tunisian, one is Taiwanese, one is Dutch, one is Palestinian, one is Portuguese, one is Finnish, one is Mexican, one is Ukrainian, one is Yemeni, one is Liberian, one is Thai-Indian, one is Iranian, one is Uzbek, one is Hungarian, and data is not available for the remaining 14 cases.

189 cases were reported with underlying diseases and 2,940 cases reported without any underlying disease. 40 cases were detected from the screening protocol at airports (one case was found within the group of Thai workers returning from Wuhan). 1,588 cases sought medical treatment by themselves, 1,189 cases were tracked via case investigation and defined as “close contacts.” A total of 55 confirmed cases were found from the active case finding measures.

### 3. Thailand Precautions

- The Centre for the Administration of the COVID-19 Situation approved the fourth phase of lockdown relaxation and the cancellation of the curfew, effective starting 15 June 2020. However, travel restrictions of incoming international passengers will continue at land borders, airports, seaports and land crossings.

### 4. Risk Communication to the Public

- The measures, including disease screening, isolation, quarantine or quarantine for observation to control and prevent the disease are implemented among passengers departing from areas or countries affected by COVID-19.
- In cases where it is necessary to make contact with other people, please wear a mask and maintain a distance of at least 1 meter between yourself and the other person when interacting with others. It is also recommended to only make contact with people for only a short period.
- Regularly wash hands with water and soap or use alcohol gel. Avoid touching your eyes, nose, and mouth with your hands.
- Do not use or share personal stuff with others (i.e. handkerchiefs, glasses, and towels) since pathogens causing respiratory disease can be transmitted to other people through secretions.
- Avoid eating raw food.
