

## Thailand situation update on 24 July 2020

### 1. International Situation

As of 24 July 2020, there were a total of 15,666,840 confirmed cases with 66,181 patients in critical condition and 636,789 COVID-19 deaths across more than 210 countries, two Special Administrative Regions of the People's Republic of China (Hong Kong and Macau), and on cruise ships. The ten countries with the most confirmed COVID-19 cases include: the United States (4,170,131), Brazil (2,289,951), India (1,290,284), Russia (800,849), South Africa (408,052), Peru (371,096), Mexico (370,712), Chile (338,759), Spain (317,246), and England (297,146). The 26th is the People's Republic of China (86,046 cases, as well as 2,250 and 46 cases in the Special Administrative Regions of Hong Kong and Macau, respectively).

### 2. The Disease Situation in Thailand

#### 2.1 Surveillance Protocol for COVID-19

The accumulated data as of 23 July 2020 showed that 7,067,640 people had passed through the international ports of entry. Of those, 2,345 people met the case definition criteria of patients under investigation (PUI), as shown in Table 1.

Table 1: Screening passengers at ports of entry

Ports of Entry	Total number of screened people	Total number of PUI
<b>Total number</b>	7,067,640	2,345
• Airport screening* (42,599 flights)	4,520,533	2,331
• Seaports**	159,547	2
• Ground ports***	2,154,020	12
• Renewing passports at the Government Complex Commemorating His Majesty at Chaengwattana Road****	233,540	0

Remark: Includes data starting from \*January 3<sup>rd</sup>, \*\*January 1<sup>st</sup>, \*\*\*February 1<sup>st</sup>, \*\*\*\*January 30<sup>th</sup>

#### 2.2 Situation of Patients with Suspected Symptoms of COVID-19 in Thailand.

On 24 July 2020 at 12.00, Thailand announced that 2,702 additional people met the criteria for PUI, raising the total to 361,862 PUI, as shown in Table 2.

<ul style="list-style-type: none"> <li>• Undergoing Treatment</li> </ul>	114
<ul style="list-style-type: none"> <li>• Deaths</li> </ul>	58
<b>Characteristics of Infection in Confirmed cases</b>	3,279
<ul style="list-style-type: none"> <li>• Local Transmission</li> </ul>	2,444
<ul style="list-style-type: none"> <li>• Imported Cases</li> </ul>	835
<ul style="list-style-type: none"> <li>- Designated Quarantine Places*</li> </ul>	342

Notice: \*Quarantine measures for travelers from abroad have been in effect since 3 April 2020

The median age of the confirmed cases is 37 years old (ranging from 1 month to 97 years old). 1,818 cases are male, and 1,461 cases are female (the ratio of male to female is 1.23:1). In terms of nationality, 2,940 cases are Thai, 328 cases are foreigners, and data is not available for the remaining 11 cases.

201 cases were reported with underlying diseases and 3,078 cases reported without any underlying disease. 40 cases were detected from the screening protocol at airports (one case was found within the group of Thai workers returning from Wuhan). 1,588 cases sought medical treatment by themselves, 1,189 cases were tracked via case investigation and defined as “close contacts.” A total of 55 confirmed cases were found from the active case finding measures.

### 3. Thailand Precautions

- The Deputy Minister of Public Health joined a video conference to convince Village Health Volunteers (OrSorMor) and Health Promoting Hospital staff to travel around Thailand under the scheme named, “Tiew Pun Suk” (trips to share happiness) as a reward for their proactive work against COVID-19. This project also aimed to promote tourism and revitalize the country's economy
- The Health Service Support Department announced the list of Alternative Hospital Quarantine sites through their website in order to support COVID-19 prevention and control measures. In addition, the Department organized a meeting to provide knowledge and guidelines for establishing quarantined places at public and private sector facilities at the Best Western Plus Wanda Grand Hotel Nonthaburi. This meeting will help to prepare the disease quarantine system for the relaxation of measures phase 6 in 44 provinces, which are the tourist attraction areas in Thailand.

### 4. Risk Communication to the Public

- In case of traveling to areas and across areas by public transport, the public transport operator must prepare the system and comply with the disease control measures, i.e. cleaning the vehicle, screening passengers, encouraging passengers to wear a mask, limiting bus services during certain periods, arranging distance between seats, and limiting the number of passengers. Customers must wear a mask at all times while traveling, refrain from talking and eating on public transport, and register each time they enter/leave the service area.

- For other business places/enterprises, operators are recommended to keep the areas clean, encourage people to wear a mask, limit the number of customers in accordance with the COVID-19 control measures.

- For people visiting crowded places or closed areas such as meeting rooms, department stores, and movie theatres, they are recommended to wear a mask, keep a distance of at least 1-2 meters from other people, and limit contact with other people to be only for a short period of time.

-Regularly wash hands with water and soap or use alcohol gel. Avoid touching your eyes, nose, and mouth with your hands.

# The Coronavirus Disease 2019 Situation

---

by Emergency Operations Center, Department of Disease Control

-Do not use or share personal stuff with others (i.e. handkerchiefs, glasses, and towels) since pathogens causing respiratory disease can be transmitted to other people through secretions.

-Avoid eating raw food.
