

## Thailand situation update on 27 July 2020

### 1. International Situation

As of 27 July 2020, there were a total of 16,440,744 confirmed cases with 66,256 patients in critical condition and 652,593 COVID-19 deaths across more than 210 countries, two Special Administrative Regions of the People's Republic of China (Hong Kong and Macau), and on cruise ships. The ten countries with the most confirmed COVID-19 cases include: the United States (4,371,839), Brazil (2,419,901), India (1,440,371), Russia (818,120), South Africa (445,433), Mexico (390,516), Peru (384,797), Chile (345,790), Spain (319,501), and England (299,426). The 26th is the People's Republic of China (86,571 cases, as well as 2,634 and 46 cases in the Special Administrative Regions of Hong Kong and Macau, respectively).

### 2. The Disease Situation in Thailand

#### 2.1 Surveillance Protocol for COVID-19

The accumulated data as of 26 July 2020 showed that 7,083,807 people had passed through the international ports of entry. Of those, 2,435 people met the case definition criteria of patients under investigation (PUI), as shown in Table 1.

Table 1: Screening passengers at ports of entry

| Ports of Entry                                                                                     | Total number of screened people | Total number of PUI |
|----------------------------------------------------------------------------------------------------|---------------------------------|---------------------|
| <b>Total number</b>                                                                                | 7,083,807                       | 2,435               |
| • Airport screening* (42,766 flights)                                                              | 4,525,424                       | 2,421               |
| • Seaports**                                                                                       | 160,331                         | 2                   |
| • Ground ports***                                                                                  | 2,163,179                       | 12                  |
| • Renewing passports at the Government Complex Commemorating His Majesty at Chaengwattana Road**** | 234,873                         | 0                   |

Notice: \*Quarantine measures for travelers from abroad have been in effect since 3 April 2020

The median age of the confirmed cases is 37 years old (ranging from 1 month to 97 years old). 1,827 cases are male, and 1,468 cases are female (the ratio of male to female is 1.23:1). In terms of nationality, 2,956 cases are Thai, 330 cases are foreigners, and data is not available for the remaining 9 cases.

201 cases were reported with underlying diseases and 3,094 cases reported without any underlying disease. 40 cases were detected from the screening protocol at airports (one case was found within the group of Thai workers returning from Wuhan). 1,588 cases sought medical treatment by themselves, 1,189 cases were tracked via case investigation and defined as “close contacts.” A total of 55 confirmed cases were found from the active case finding measures.

### 3. Thailand Precautions

Dr. Narong Saiwong, Deputy Permanent Secretary of the Ministry of Public Health has opened a COVID-19 laboratory for pathogen detection at Crown Prince Hospital, Sawang Daen Din, Sakon Nakhon province. Sawang Daen Din Hospital serves as a model for laboratories under the Crown Prince Hospitals and community hospitals of the Ministry of Public Health aligning with the royal strategy for quality health care for the people.

### 4. Risk Communication to the Public

- In case of traveling to areas and across areas by public transport, the public transport operator must prepare the system and comply with the disease control measures, i.e. cleaning the vehicle, screening passengers, encouraging passengers to wear a mask, limiting bus services during certain periods, arranging distance between seats, and limiting the number of passengers. Customers must wear a mask at all times while traveling, refrain from talking and eating on public transport, and register each time they enter/leave the service area.

- For other business places/enterprises, operators are recommended to keep the areas clean, encourage people to wear a mask, limit the number of customers in accordance with the COVID-19 control measures.

- For people visiting crowded places or closed areas such as meeting rooms, department stores, and movie theatres, they are recommended to wear a mask, keep a distance of at least 1-2 meters from other people, and limit contact with other people to be only for a short period of time.

-Regularly wash hands with water and soap or use alcohol gel. Avoid touching your eyes, nose, and mouth with your hands.

-Do not use or share personal stuff with others (i.e. handkerchiefs, glasses, and towels) since pathogens causing respiratory disease can be transmitted to other people through secretions.

-Avoid eating raw food.
