

Thailand situation update on 4 October 2020

1. International Situation

As of 4 October 2020, there were a total of 35,163,497 confirmed cases with 66,073 patients in critical condition and 1,038,315 COVID-19 deaths across more than 213 countries, two Special Administrative Regions of the People's Republic of China (Hong Kong and Macau), and on cruise ships. The ten countries with the most confirmed COVID-19 cases include: the United States (7,600,846), India (6,553,027), Brazil (4,906,833), Russia (1,215,001), Colombia (848,147), Peru (824,985), Spain (810,807), Argentina (790,818), Mexico (757,953), and South Africa (679,716). The 44th is the People's Republic of China (90,605 cases, as well as 5,109 and 46 cases in the Special Administrative Regions of Hong Kong and Macau, respectively).

2. The Disease Situation in Thailand

2.1 Surveillance Protocol for COVID-19

The accumulated data as of 3 October 2020 showed that 7,478,424 people had passed through the international ports of entry. Of those, 3,154 people met the case definition criteria of patients under investigation (PUI), as shown in Table 1.

Table 1: Screening passengers at ports of entry

Ports of Entry	Total number of screened people	Total number of PUI
Total number	7,478,424	3,154
• Airport screening* (46,968 flights)	4,628,299	3,134
• Seaports**	176,297	2
• Ground ports***	2,359,350	18
• Renewing passports at the Government Complex Commemorating His Majesty at Chaengwattana Road****	314,478	0

Remark: Includes data starting from *January 3rd, **January 1st, ***February 1st, ****January 30th

2.2 Situation of Patients with Suspected Symptoms of COVID-19 in Thailand.

On 4 October 2020 at 12.00, Thailand announced that 476 additional people met the criteria for PUI, raising the total to 454,861 PUI, as shown in Table 2.

Table 2: Results of screening implementation to detect patients with suspected symptoms of COVID-19

Situation	Total number of PUI
Total number of laboratory tests	882,271
<ul style="list-style-type: none"> • People who met the PUI criteria 	454,861
<ul style="list-style-type: none"> • From the Active Case Finding 	15,834
<ul style="list-style-type: none"> • Returnees under state quarantine 	81,676
<ul style="list-style-type: none"> • People who did not meet the PUI criteria 	329,900
Total number of people who met the criteria of patients under investigation (PUI)	454,861
<ul style="list-style-type: none"> • Detected from ports of entry 	3,154
<ul style="list-style-type: none"> • Sought medical services on their own at hospitals (142,544 cases in private hospitals, and 309,075 cases in public hospitals) 	451,619
<ul style="list-style-type: none"> • Notified by hotel residences, the Erawan Medical Center, local universities, tour groups and U-Tapao 	88
Confirmed cases	3,585
<ul style="list-style-type: none"> • Recovered and discharged from hospitals 	3,388
<ul style="list-style-type: none"> • Undergoing Treatment 	138
<ul style="list-style-type: none"> • Deaths 	59
Characteristics of Infection in Confirmed cases	3,585
<ul style="list-style-type: none"> • Local Transmission 	2,445
<ul style="list-style-type: none"> • Imported Cases 	1,140
<ul style="list-style-type: none"> - Designated Quarantine Places* 	647

Notice: *Quarantine measures for travelers from abroad have been in effect since 3 April 2020

The median age of the confirmed cases is 36 years old (ranging from 1 month to 97 years old). 2,024 cases are male, and 1,561 cases are female (the ratio of male to female is 1.3:1). In terms of nationality, 3,173 cases are Thai, 403 cases are foreigners, and data is not available for the remaining 9 cases.

213 cases were reported with underlying diseases and 3,372 cases reported without any underlying disease. 40 cases were detected from the screening protocol at airports (one case was found within the group of Thai workers returning from Wuhan). 1,588 cases sought medical treatment by themselves, 647 cases were positive from the state quarantine supported by the government. A total of 55 confirmed cases were found from the active case finding measures.

3. Thailand Precautions

- The Governor of Tak province issued a command on ceasing of entry-exit at the Port of Entry (POE) of persons and vehicles with no more than 4 wheels to carry merchandise at the Second Thai-Myanmar Friendship Bridge POE. Each vehicle crossing borders must have only one driver and must go through the screening procedure by the communicable disease control officer of the International Disease Control Port of Entry.

4. Risk Communication to the Public

- In case of traveling to areas and across areas by public transport, the public transport operator must prepare the system and comply with the disease control measures, i.e. cleaning the vehicle, screening passengers, encouraging passengers to wear a mask, limiting bus services during certain periods, arranging distance between seats, and limiting the number of passengers. Customers must wear a mask at all times while traveling, refrain from talking and eating on public transport, and register each time they enter/leave the service area.

- For other business places/enterprises, operators are recommended to keep the areas clean, encourage people to wear a mask, limit the number of customers in accordance with the COVID-19 control measures.

- For people visiting crowded places or closed areas such as meeting rooms, department stores, and movie theatres, they are recommended to wear a mask, keep a distance of at least 1-2 meters from other people, and limit contact with other people to be only for a short period of time.

- Regularly wash hands with water and soap or use alcohol gel. Avoid touching your eyes, nose, and mouth with your hands.

- Do not use or share personal stuff with others (i.e. handkerchiefs, glasses, and towels) since pathogens causing respiratory disease can be transmitted to other people through secretions.

- Avoid eating raw food.
