Remark: *PUI (Patients Under Investigation)

3. Thailand Implementations

- The Ministry of Public Health, Department of Disease Control emphasized people to protect themselves by strictly implementing COVID-19 control measures during the Songkran festival. Keeping a good practice for personal hygiene while returning and staying at their hometowns is to prevent getting infected or spreading the infection to others. Vehicles should be inspected and prepared before the trip as well.
- The Department of Corrections of the Ministry of Justice announced the suspension of family visits in all prisons nationwide from 5 April - 5 May 2021 after detection of the infected persons in the Narathiwat prison. The relatives can visit the prisoners through an online system via Line application. It does not allow to move inmates between prisons, and isolation of new inmates without movement and leaving from rooms has been implemented for a period of 14-21 days.
- The Deputy Permanent Secretary for Bangkok Metropolitan Administration went to visit a risk group of about 1,400 people that were Thai traders and assistant traders in the Bangkhunthian market. Those traders were provided COVID-19 vaccination of

Sinovac and AstraZeneca. There was no report of adverse events and they will be received for the second dose of vaccines as scheduled. In this regard, they are closely followed up for any abnormal symptoms.

4. Risk Assessment of COVID-19 Situation

According to the report of the COVID-19 situation during 29 March – 4 May 2021, Thailand reported 301 new confirmed cases. Of those confirmed cases, 43 cases (14.3%) had a risk history related to the entertainment venues, 22 cases (51.1%) were male, 40 cases (93%) were Thai people, 34 cases (79%) showed some symptoms of respiratory disease, 27 cases (62.8%) had a history of visiting/working at the entertainment venue located in Ekamai, and 11 cases (25.6%) had a history of visiting the entertainment venue located in Salaya, Nakhon Pathom province. Therefore, in order to reduce the risk of disease transmission in entertainment venues, the operators shall strictly comply with the disease control measure issued by the government including promoting of wearing a mask among customers, cleaning the areas always touched by people especially the handrail and doorknob, requesting the customer to register through Thaichana or Morchana applications, providing the alcohol gels at the each common areas, and checking the customers' body temperature.
